## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 12-19 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Wataya ('214). Note Figure 6 disclosing a correction to the airflow signal before entry to the processor for calculating a fueling amount.

Art Unit: 3747

Claims 1-3, 8, 12-19 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Wataya ('631). Note Figure 6 disclosing correcting the airflow signal before entry to the processor for calculating a fueling amount.

Claims 1, 2, 12-17 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Vernier. Note Figure 7 and corrective circuit (22.1) for the signal before entry to the processor (16).

### ***Allowable Subject Matter***

Claims 5-7, 9-11 and 31 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 20-29 are allowed.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Coverdill et al and Griffin et al are cited to show vehicle information systems.
